

Kansas eCourt: CCMS Project Update (9-13-24)

Johnson County District Court go-live date is November 5

The 10th Judicial District (Johnson County District Court) will transition to the Kansas eCourt case management system between October 31 and November 5. The change will affect some processes as early as October 26.

This one-county district, also known as Track 8 on the Kansas eCourt statewide rollout plan, will complete the eCourt case management system roll out. The court's go-live also fulfills this portion of the Kansas Supreme Court eCourt plan to transform the way the state court system serves the people of Kansas.

Detailed information is on the [Johnson County District Court go-live webpage](#).

TOGA wallet accounts

To pay filing fees to any court operating on the Kansas eCourt case management system, you must set up a TOGA wallet account under your user profile in the [Kansas Courts eFiling system](#).

You must set up your account before you can pay filing fees through the eFiling system when you efile in any court operating on the Kansas eCourt case management system.

Johnson County District Court will require a TOGA wallet account for eFiling payments beginning November 5.

To set up your account, follow the [TOGA Wallet Account Instructions](#) on the [eFiling Updates page](#).

Track 8 go-live impact on other courts

There will be minimal impact to other state courts when data from Johnson County District Court is added to the Kansas eCourt case management system.

From 5 p.m. Friday, November 1, to 12:01 a.m. Monday, November 4, the Kansas eCourt case management system will be offline for district courts statewide. Courts will not accept electronic filings or electronic payments.

The [Kansas District Court Public Access Portal](#) will not be able to retrieve case data during this time.

Track 8 go-live schedule

To prepare the Johnson County District Court to convert from the Justice Information Management System, or JIMS, to the Kansas eCourt case management system, the court must stop taking filings and payments made electronically.

The timeline for the Johnson County District Court transition from JIMS to the Kansas eCourt case management system will be recorded in a Supreme Court administrative order. The order will be available on the [Search Orders webpage](#) ahead of the transition.

In the meantime, the timeline is generally described as follows:

Saturday, October 26

At noon CT, Johnson County District Court will stop taking electronic payments and electronic filings.

Monday, October 28, through Friday, November 1

The court is open, operating, and accepting paper filings. The court will also accept

payments made by cash or paper check.

Visitors to the court's self-help center will not be able to use courthouse terminals to search cases.

Monday, November 4

The Johnson County District Court clerk office and self-help center are closed to the public. Electronic filing and electronic payments are still turned off.

Tuesday, November 5

At 8 a.m. CT, Johnson County District Court is fully operating on the eCourt case management system. Electronic filing and electronic payments resume. Clerk office and self-help center reopen.

Filing court documents during go-live

We recommend that court filers plan around the go-live schedule.

If a filing is due between October 28 and November 5, we recommend you file it early, even though the court will accept paper filings during part of this time.

We make this recommendation to ease pressure on the court. Paper filings made between October 28 and November 1 must be entered into the case management system before November 5.

Supreme Court Rules 20–25

Unless otherwise indicated, these rules apply to courts as they are brought onto the Kansas eCourt case management system. They require the filer to correctly designate the case and document type. They also require the filer to indicate if the document complies with Rule 24 protecting personally identifiable information or if it is filed under seal.

These rules are necessary to protect individuals' personally identifiable information as district court records are made accessible through the public access portal as part of the Kansas eCourt case management system.

[Supreme Court Rules 20–25](#) are known as the Kansas eCourt rules and they can be found on the [Search Rules page](#).
